

WHY SHOULD YOU JOIN WREP?

**DAUPHIN COUNTY
WATER RESOURCE
ENHANCEMENT PROGRAM**

STORMWATER, FLOODING AND WATER QUALITY are big issues for any local government, today more than ever.

Addressing them can be a **TREMENDOUS EXPENSE**.

WREP can save your municipality **60-90%** -- plus time and energy -- through its coordinated efforts and strategic partnerships.

And the more communities who join, **THE MORE EVERYONE WILL SAVE.**

DAUPHIN COUNTY WATER RESOURCE ENHANCEMENT PROGRAM (WREP)

WHAT IS WREP?

A regional program to address stormwater, flooding and water quality issues while meeting environmental regulations. It offers enhanced resources and collaborative solutions for effective water management.

WHO CREATED IT?

The Dauphin County Commissioners with Tri-County Regional Planning Commission, Dauphin County Conservation District, and Dauphin County Community & Economic Development.

WHAT WILL IT DO?

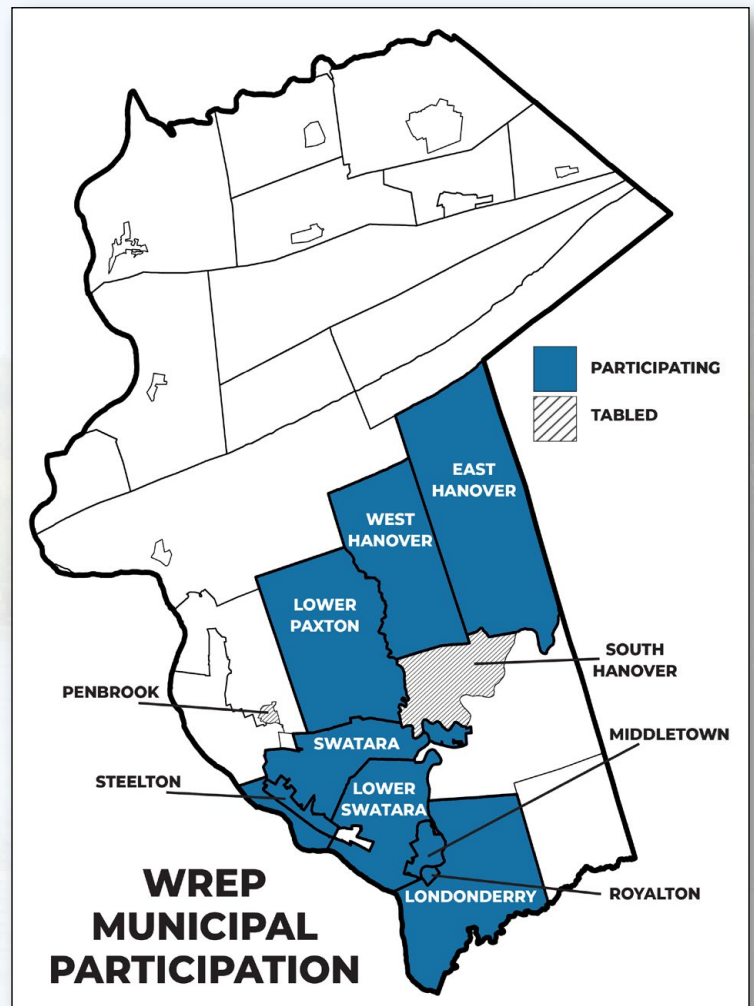

WREP provides municipalities with a comprehensive framework to map, plan, fund, and complete projects, leveraging shared resources and streamlined processes for impactful stormwater management solutions.

WILL IT SAVE MONEY?

It will cut municipal spending on water-related issues by as much as 60 to 90 percent and save taxpayer dollars. The overall savings will rely on participation: the more municipalities involved, the more they will save. (For example, on the current Conewago Creek Restoration Project, the participating municipalities will save a combined total of nearly \$1 million.)

WHY IS IT NECESSARY?

Dauphin County's municipalities have faced a growing range of water-related issues in recent years. The cost to address them has risen due to the increasing complexity of their impact and the environmental regulations associated with them.

Conewago Creek restoration project

HOW WILL IT AFFECT EXISTING PROGRAMS?

WREP is voluntary and is meant to enhance -- not replicate or replace -- existing stormwater management programs. Also, it will not create new fees.

ARE THERE OTHER BENEFITS?

It will save municipalities considerable time and effort by enabling them to participate in regionalized services where it makes the most sense to do so.

HOW CAN I FIND OUT MORE?
